

### IN THE CLAIMS

Please amend the claims as follows:

Claim 1 (three time amended). A light occlusive eye patch having an upper side and a lower side, comprising at least two layers of foamed material, said at least two layers being a top layer and an inner layer; one side of said inner layer facing said top layer, and the other side of said inner layer being provided with a skin-compatible self-adhesive coating, and wherein at least one of the layers comprises a black, light occlusive layer, and further wherein, all foamed layers comprise the same foam material.

Please add new claim 14 as follows:

Claim 14 (New). The light occlusive eye patch of claim 1, wherein said black, light occlusive layer comprises a third layer of foam material positioned between said layer comprising said upper side, and said adhesive containing layer comprising said lower side.

Claim 15 (New). The light occlusive eye patch of claim 14, wherein said black, light occlusive layer comprises a foam material selected from the group consisting of polyurethane, polypropylene, polyethylene and polyvinylchloride.
